Observed Student's progress in the course. Helped Student's by clearing their doubts regarding DS/Algo in C++

PROJECT

FEATUR BASED SPAM EMAIL AND IP DETECTION USING MACHINE LEARNING

| MACHINE LEARNING

Github:// Anil Kumar

October 2021- June 2022

* In this project i have classify whether the email are spam or not and also detect IP addresses of the sender. in this model i use the spam data-set and trained the model which classifies the spam email. i use different algorithm in this model.

* In this project, dataset taken from the "Kaggle" website and i use "Naive bayes" algorithm for spam email detection and for IP detection i use regular expression . in this i use PYTHON as primary language some machine learning . it gives 98

CREATE A WEB PAGE USING HTML AND CSS

Github:// Anil Kumar

Sept 2022- Sept 2022

This page was created using HTML and CSS in which many types of instructions died like Home, Abbot, Skill, Experience, Education, Portfolio, Contact more And many more links, profile

MUSIC PLAYERS

Github:// Anil Kumar

Oct 2022- Oct 2022

Its the music player sample template made from scratch with the help of HTML CSS. Added CSS functionalities and one more web page named Favourite.

ALARM WATCH

Github: Hosting// Anil Kumar

nov2022- dec2022

Using programming language HTML, CSS, JavaScript A alarm watch are multiply option set alarm according your need (hosting link = <https://profound-fox-8fc961.netlify.app/>)
